

## Caux Forum 2023

### Save the Date

The Caux Forum is returning with two in-person events in July 2023 and aims to bring to the world an urgent message of hope and challenge. Some online elements will be incorporated to include those who can't participate in person.

- **Opening Ceremony**  
18 July 2023, 10:00 – 12:00

A panel discussion on key challenges facing community trust-building and where we can find hope.

- **'Healing the wounds of the past'**  
18 - 22 July 2023

This event will provide a space for all who are searching for healing, reconciliation and ways to rebuild trust.

Broken relationships result from unhealed wounds, often transferred through generations. But healing can come. New energy, vision and calling can emerge from each step taken to repair a relationship. Trust can grow again, and with it the cooperation needed to answer the huge challenges we face globally. Including creating a new relationship with our natural environment.

- **'Integrity in public life to make democracy work'**  
24 – 26 July, 2023

How can we see a resurgence of trust in our political systems? And what can ordinary citizens do to reverse this trend and strengthen democracy in their respective countries?

This event is for those who want to discover how to help their countries respond effectively to internal and global challenges.

Please hold space in your schedules to join us at the Caux Forum in 2023.
